Dear HHS, please be aware that there is considerable consternation among my 3 parishes in Northwest Minnesota concerning your new regulations that seem to identify pregnancy as some "disease" that must be prevented and that contraception is to be paid for by our tax dollars.

This is really going off the deep end and many people are quite upset. As the saying goes: "What were you thinking?"

I ask you to please consider praying on this issue and stop defeating God's plan for life.

Thanks for your consideration!

Blessings!
Fr. Bob Stone
